tone is the word people might use but overall it's about your brand identity the way you write captions and comments should ladder up so you're not talking in text lingo on one post and ye olde english the next every brand's voice is different but a simple semi casual tone is a good starting point to get more instagram followers regram is best for brands or accounts that want to share content quickly and reliably if your growth strategy involves attracting new followers by sharing existing content regram saves you from having to crop screenshots every time you want to share someone else's photo engaging with your existing audience is crucial to getting more instagram followers write a simple open ended question in a post use a poll or question sticker to spark conversation in your stories if you want to build up engagement know that it takes time and you need to start conversations on posts other than your own asking questions responding to comments and replying to stories are some of the few ways to engage more with your audience
